#### Nine Major Departments

. The nine major departments are arranged in the following order:-

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business Section, which embraces a list of the names and addresses of all business and professional concerns of Ames and Nevada, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the communities. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In busy and diversified communities like Ames and Nevada, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns of Ames is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Ames, and the name, official personnel, nature and address of each firm and corporation in the city.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE for Ames is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner occupied homes, the listing of telephone numbers and Zip Code numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY for Ames is the fourth major department, printed on blue paper.

V. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns of Nevada is the fifth major department, printed on white paper.

VI. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE for Nevada is the sixth major department, printed on green paper.

VII. THE NUMERICAL TELEPHONE DIRECTORY for Nevada is the seventh major department, printed on blue paper.

VIII. THE STORY COUNTY DIRECTORY covering the small towns of the county is the eighth major department, printed on white paper.

IX. THE STORY COUNTY TAXPAYERS DIRECTORY is the ninth major department, printed on white paper.

#### Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Ames and vicinity.

#### The Ames Directory Library

Through the courtesy of the publishers of the Ames City Directory, a Directory Library is maintained in the offices of the Ames Public Library, for free reference by the general public. This is one of more than 1,000 Directory Libraries installed in cities and towns throughout the United States, Canada and Puerto Rico by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

The National Animal Disease Laboratory, Ames, Iowa, is the United States Department of Agriculture's research center for investigation of livestock and poultry diseases that occur in the United States. The laboratory, completed and occupied in 1961, is a complex of fire-resistant buildings located on a 318 acre tract of land approximately three miles northeast of the city. Constructed for approximately \$16.5 million, the laboratory with an operating budget in excess of \$6.5 million annually, each year continues to expand in research and

laboratory facilities. This, the world's most modern veterinary research facility, requires as many utilities and services as a small city. Many of the animals used in the various research projects are reared at the Animal Production Unit, which is located approximately one and one-eighth miles south of the main laboratory on a site consisting of some 45 acres. The laboratory employs approximately 475 persons, one-fourth of which are scientists—research veterinarians, microbiologists, biochemists, physicists, and other biological scientists. A number of laboratory assistants, technicians, and administrative personnel are also employed.

The aims and purposes of this laboratory are to develop basic and applied research programs on infectious and non-infectious diseases of animals that rob the American farmers of approximately \$2 billion annually, and decrease the potential of an adequate supply of animal protein to the consumer. Investigation of each disease entity is conducted by a team of scientists who have different and specialized training.

In addition to the research program, two regulatory divisions have programs associated with the laboratory. These include setting standards and testing veterinary biologics for safety and potency, and providing diagnostic services to support Federal programs for the control and eradication of animal diseases.

#### THE IOWA STATE HIGHWAY COMMISSION

The responsibility of the Iowa State Highway Commission is to provide the road user with as fine a system of highways as is economically possible, and to protect that investment by continuous maintenance for safe year-round travel.

Created in the dirt road days of 1904 to make investigations of road conditions and to advise local authorities, the Iowa State Highway Commission today reflects the increasing awareness by Iowans of the importance of highway transportation to the state's development and progress.

The five members of the Commission, appointed by the Governor, establish organization policies. The administration of those policies is the responsibility of the Directory of Highways.

Basic functions of the Commission are to:

 Develop and maintain a current inventory of all highway facilities in the state.

2. Analyze and project highway needs.

- Plan, program and design the necessary highway facilities to meet these needs.
- 4. Acquire right of way, let contracts and supervise construction of new highway facilities.

5. Maintain highway facilities in a safe and well-kept condition for the motoring public.

The Highway Commission today is responsible for 8,963 miles of rural primary highways, 1,163 miles of primary extensions in cities and towns, 202 miles of state park and institution roads and for joint control with the 99 county boards of supervisors over 90,543 miles of secondary roads.

The Commission cooperates with county authorities in approving plans and contracts for road construction, approves budgets for secondary roads, reviews city programs, budgets and plans for street improvements, provides engineering assistance to other state departments, works closely with cities and towns in preparation of long-range plans.

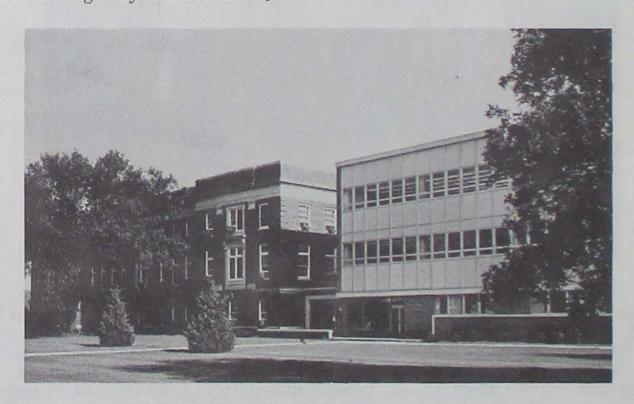

Nearly 1,000 persons are employed in the Highway Commission state headquarters in Ames. Approximately 3,000 additional personnel are employed by the commission throughout the state. This total includes Commission maintenance forces in each of the 99 counties.

The Commission has six district offices, 24 resident construction offices and 24 maintenance offices.

Salaries paid to Ames area employees in 1968 totaled \$9.5 million. The state wide payroll for the Highway Commission in 1968 was \$29.6 million.

During the calendar year contracts approved by the Iowa State Highway Commission for construction on the primary and Interstate system and on the state parks and institutional roads totaled \$64 million. Additional contracts of \$26.2 million were approved on the farm to market road system.

Highway construction expenditures for 1968 were \$108.6 million, of which \$7.5 million was for right of way acquisition. An additional \$20.6 million was expended on highway maintenance.

The school plant comprises twenty-two buildings, with a present total new replacement value of \$13,957,-504. This plant includes the new Senior High School; the downtown Central Junior High School building and its splendid auditorium and gymnasium facil-

ities; the new Welch Junior High; the Beardshear, Crawford, Edwards, Fellows, Harlan, Lincoln, North Grant, Meeker, Roosevelt, Sawyer, Whittier, and

Willson Elementary Schools; and the Maintenance Building.

Four projects were completed during the past three years. A stadium with a well lighted football field and an all-weather Grasstex track was used for the first complete football season in the fall of 1966. Connected with this stadium is a senior high school gymnasium that was dedicated in February, 1967. A joint city-school recreation building housing a 75' x 75' swimming pool is connected with the gymnasium and is used jointly by the school and city. A new elementary school, the Fellows School, was dedicated in April, 1967. A new Welch Junior High School for the west side of Ames was opened in the fall of 1968. The outgrown Welch building, which a few years ago served both junior high and elementary school students, has been converted to full-time elementary use and named John E. Harlan School.

During the past fifteen years ten different bond issues were successfully carried to authorize the construction of five elementary schools, additions to nine elementary schools, remodeling of junior high school facilities, a new high school, and a new junior high school. The most recent of the ten successful bond issues, the \$3,900,000 issue approved in March, 1968, is providing funds to build two new elementary schools, additions to four elementary schools, an addition to the Senior High School, and an addition to the Welch Junior High School. There were a total of 112 elementary classrooms with related facilities and 67 secondary classrooms in these construction projects.

The new Senior High School was constructed a unit at a time as funds permitted on a beautiful, spacious 74 acre site. Some additional well located sites are being acquired on which to build more schools to meet the needs of the growing enrollment.

#### Ames Senior High School

Each year the average teaching load has been kept at about 25 children per teacher by providing additional classroom space and more teachers. The central office staff has also been increased during the past two years by the employment of a Curriculum Director and an Instructional Materials Coordinator to continue to improve the services to individual students and classroom teachers.

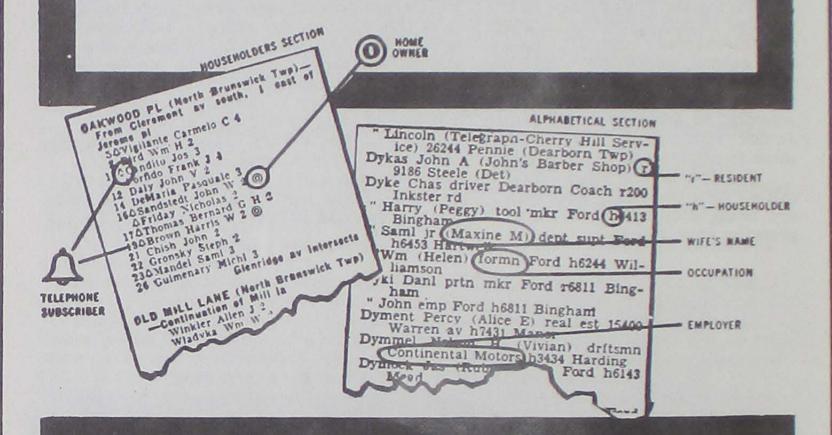

Pupil enrollment, exclusive of about 1,500 people in adult education, is 6,100. The teachers and other professional staff numbers 375. There are 120 other personnel—secretaries, food service employees, and custodians. The Ames Schools have a fine staff of supervisors who give guidance in the curriculum areas at all levels. There also are special education services for children at all levels.

#### Conclusion

From the foregoing factual data, it can be seen that Ames offers many advantages—Social, economic, educational. It has an exceptionally high health rating; it is a city of beautiful homes, situated in one of the fairest states in the land, in the heart of the world's wealthiest agricultural region. Ames possesses virtually every element vital to the social and economic welfare and personal happiness of the individual, and every element of success for the small business or small industry.

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

#### Out of Sight • Out of Mind \* Out of Business \*

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

\*

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages. BANKS

### A STATEMENT

### ADVERTISING PRINCIPLES

- 1. Good Advertising waims to inform the consumer and help him to buy more intelligently.
- 2. Good Advertising wells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
- 3. Good Advertising ~ conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
- 4. Good Advertising ~ recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Advertising Federation of America

(Your Directory publishers fully subscribe to the principles set forth in this statement)

### Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product-he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

### Our Service Cannot Be Excelled

R. L. POLK & CO.

## CITY DIRECTORY ADVERTISING IS National ADVERTISING

★ Each edition of your City Directory is widely distributed to free-reference City Directory Libraries located at the Chambers of Commerce of hundreds of other cities.

Therefore your ad in the City Directory is seen by buyers from coast-to-coast

Street and Avenue Guide Including Telephone Numbers, Home Owner Symbols and Zip Codes

1969

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to alphabetical list of names.

The symbol of following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names. Zip code numbers are shown immediately following each street description. If a street runs through more than one zone, the new zip code number is shown immediately preceding the lowest street number in the new zone.

This section includes some listings reading "no return." In each case the publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

# DIRECTORY SYMBOLS AND DESIGNATIONS

TN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

# Out of Sight--Out of Mind

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

Street and Avenue Guide Including Telephone Numbers, Home Owner Symbols and Zip Codes

#### 1969

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to alphabetical list of names.

The symbol of following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names. Zip code numbers are shown immediately following each street description. If a street runs through more than one zone, the new zip code number is shown immediately preceding the lowest street number in the new zone.

This section includes some listings reading "no return." In each case the publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

# Study all directory advertising invoices carefully

Business and Classified Directory publishers under various names have flooded our mails for several years with solicitations resembling City Directory invoices. Most such solicitations state that they are not invoices, but nevertheless business people frequently overlook this and process them for payment.

What seems like an invoice may really be a carefully worded proposal for service—of an indefinite nature—and questionable value—to be rendered in the future, if you pay in advance. If in doubt, check with your local Better Business Bureau, or your established City Directory publisher.

Before you invest, investigate!

# Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

### Your City Directory Contains:

- An Alphabetical list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.
- A Householders' Directory including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.
- A Classified Business Directory—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.
- A "Yellow Section" or Buyers' Guide, where the advertiser may explain in greater detail the services or products he has to offer.
- 5 A Statistical and Historical Story of your city; plus miscellaneous other information.

# CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of R. L. Polk & Co. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertising or subscriptions.
